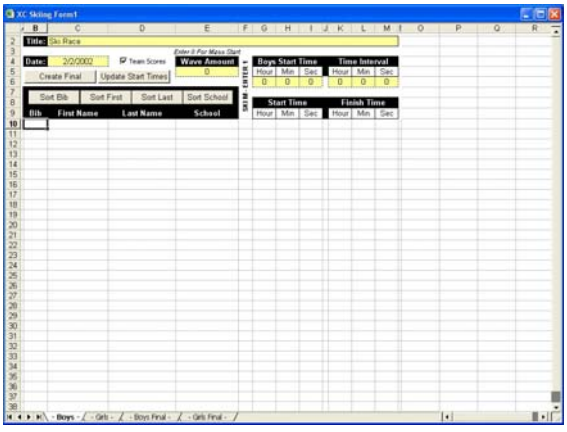
Excel Race Template Start Up

1. Browse to and double click on the excel template you wish to use:

(Note: Your template files might look different)

2. When you first open the template, you will receive a '*Security Warning*' as seen below. Check the box next to '*Always trust macros from this publisher*' and press '*Enable Macros*'.

3. Once the Excel Spreadsheet has been open, your screen should look similar to the one below:



4. After the template has been opened once, you will no longer receive the security warning.
